

QP3 ErgoSystems' expert team is comprised of professionals in healthcare, industrial hygiene, public health, ergonomics, and safety. We conduct safety best practices reviews and audits for clients across the world and in every industry including Hospitality, Restaurants, Travel, Manufacturing, Processing, Retail and Offices.

QP3 ErgoSystems on-site services review your practices and procedures to identify potential gaps in COVID-19 best practices and find ways to help you improve and **give clients, guests and customers reassurance** that your business is doing everything it can to **minimize the spread of disease.**

How are you going to assure visitors and guests that you are following COVID-19 best practices, and that **your efforts are backed up by an independent third party?** How are you going to convince your customers that **your operations can be trusted** to support their supply chain?

We can help.

"Integrating people, materials and equipment...
to make companies better!"™

Let your customers know that your company follows COVID-19 best practices!

By scheduling an on-site, independent, third-party COVID-19 audit with QP3 ErgoSystems you are taking a crucial step toward instilling client/guest confidence that your location is safe to visit. Our audits are tougher than those recommended by some trade associations and world-class companies and have been developed by experts in the fields of Safety, Industrial Hygiene, Public Health, Healthcare, and Ergonomics.

While conducting our on-site COVID-19 audits, we will review your COVID-19 policies, practices, and procedures, and give you a comprehensive report and a COVID-19 Best Practices Ranking. This independent ranking can be included in your marketing materials to show customers that you are positioned to protect your operations (and them) from COVID-19.

QP3 ErgoSystems COVID-19 Services

- **SELF-HELP:** COVID-19 Best Practices Training and downloadable resources for companies of all sizes available via our "pay-per-view" learning management system.
- **DESKTOP REVIEWS:** Our experts will review your COVID-19 programs and practices and provide recommendations for improvement.
- **INDEPENDENT ON-SITE AUDITS AND RATINGS:** We will objectively review your COVID-19 efforts and rank them against industry best practices and procedures.

Best Practices for Hospitality Training

Are you planning to reopen your hospitality property or properties, but need a training road map? Are you wondering how to train your employees on COVID-19 best practices? We can help you with food & beverage, housekeeping, maintenance/engineering operations and much more!

QP3 ErgoSystems is proud to present our **COVID-19 Best Practices for Hospitality** training program, based on best practices outlined by hospitality trade associations, OSHA, and the Centers for Disease Control. This training program is offered on our pay-per-view learning management system ergonomics.today. Email us at info@qp3ergosystems.com for a free demonstration link and for subscription pricing.

Get Your Hospitality Property Certified in COVID-19 Best Practices

Have you already implemented a COVID-19 plan and reopened or plan to resume operations soon? Our safety and health experts can review your reopening plan from a best practices perspective, and provide guidance on potential enhancements. **Do you want to assure guests and meeting planners that you can keep them and their clients safer?** Our independent, on-site **COVID-19 Best Practices Assessment** is more comprehensive than those developed by hospitality trade associations and leading properties. Properties that reach an assessment score of 90% or better receive a "Certification of Excellence for COVID-19 Best Practices." With this certification your property will be given a custom engraved plaque to display at the front desk and a digital badge to use in correspondence and on your website.
